

“I feel happier knowing my levels.”

“FreeStyle Freedom’s tiny blood drop means I don’t get sore fingers when testing a lot.”

Gentle testing

The FreeStyle™ test strip (used by both FreeStyle Freedom™ and FreeStyle Mini™) uses

50% less blood than any other leading test strip.

actual size

- You can get a blood drop this tiny with a pinprick so shallow it’s virtually painless
- When you test with FreeStyle Freedom™ you can choose your fingertip or less sensitive palm

Is FreeStyle Freedom™ the right choice for you?

- ✓ **Extra-clear**, large numbers
- ✓ **Gentle testing** with the world’s smallest blood sample
- ✓ **Fast testing** - average 5-seconds
- ✓ **250-result** downloadable memory with date and time
- ✓ Four daily **programmable alarms**

“I like a meter with a really clear screen.”

Uses **FreeStyle™** test strips

NEW

When life is more settled

“My eyesight isn’t so good.”

“I chose FreeStyle Freedom™ because of the big clear numbers on the screen.”

Extra-clear display

- FreeStyle Freedom™ has larger numbers than any other leading meter

actual size

$\frac{3}{4}$ "
(2 cm)

“For me a meter must be easy to handle.”

“I find FreeStyle Freedom™ fits comfortably in the palm of my hand.”

Fits your hand

- FreeStyle Freedom™ is easy to handle and comfortable to hold

“Sometimes I used to forget my insulin.”

“Now FreeStyle Freedom™ reminds me every day.”

Programmable alarms

- FreeStyle Freedom™ can be programmed with up to four daily alarms

- The ring volume is adjustable
- The alarms can help you keep to a regular testing schedule
